

**\*With each purchase of  
NEW 980-HD Quick  
Disconnect between  
Feb 1 - Mar 31, 2010**

Becker's Model 980-HD Quick Disconnect has been redesigned to allow one section of an orthosis to disconnect from another with a simple push of a button.

Modularity can now be built into any device by incorporating the Quick Disconnect into cervical, spinal, lower and upper limb orthotics. Quickly remove or add sections of an orthosis as the needs of your patients vary.

980-HD.....\$53.40 ea.

Choose one of the six transfer alternatives (40" x 60" sheet) shown below and specify your selection when placing your order.
