

# Prevalon® Pressure-Relieving Heel Protector

from Sage Products

*Prevalon® Pressure-Relieving Heel Protector helps minimize pressure, friction and shear on the feet, heels and ankles of non-ambulatory patients. It completely off-loads the heel delivering total, continuous pressure relief. It maximizes support under the foot helping prevent plantar flexion contracture (foot drop), and also helps prevent lateral foot and leg rotation.*

*Incorporating a heel pressure ulcer prevention protocol - combined*

*with early, aggressive implementation of pressure-relieving devices and early identification of high-risk patient populations has been proven to reduce the rate of heel pressure ulcers. Clinically proven, Prevalon can have an immediate impact on your pressure ulcer prevention strategies by establishing a protocol for at-risk patients.*

*Prevalon also helps meet CMS mandates and IHI's recommendation to prevent pressure ulcers.*
