

Foot Shell with BIOVYN™

Fillauer introduces the world's first Bio-Attributed PVC Prosthetic foot shell, based on the innovative material, BIOVYN™. Accompanied by a sleek, modern prosthetic sock, the shell maintains the same appearance while increasing the warranty from 6 to 9 months.

Features & Benefits

- Made with BIOVYN™, a bio-attributed PVC that is based on 100% renewable feedstock and significantly reduced carbon emissions.
- More durable than previous Foot Shells, increased warranty from 6 months to 9 months
- Natural appearance
- Available in 4 colors
- Comes with a sleek new black prosthetic sock, available in three different sizes to appropriately fit the foot

Specifications
