

2023 REWARDS CATALOG

REWARDS

The SPS Rewards program includes products carefully selected to offer discounts on quality products in key categories.

How it works

Save an additional 3%, 5%, or 7% on Rewards products ordered online.

40K+

Rewards products
available

Look for the Rewards Ribbons
listed on products online

Note - The Rewards program is designed to be a supplemental discount incentive that does not affect your current discount agreement. Discounts are only valid on orders placed on spsc.com. The Rewards discount is applied to your discounted price, not list price.

NAVIGATING NEW WATERS

terrain™ MEETS THE SEA

The waterproof Terrain foot was created to achieve anatomical ankle motion and energy return in a low profile. College Park uses its tri-axial technology expertise in a new way. With a versatile and service-free design, the Terrain features a carbon fiber base and permanent bumpers inside the ankle housing for a progressive, comfortable response during low to high impact activities.

More Degrees of Freedom.

Impact Protection and Rotation.

META Shock X
by WillowWood

PRODUCT HIGHLIGHTS:

- 40° Torsional Rotation
- Responsive Shock Absorption
- Low Build Height/High Displacement
- Lightweight Unibody Carbon Fiber Design
- Split Keel
- Corrosion Resistant and Waterproof

The META® Shock X brings torsion to the high activity META Shock foot, incorporating 40° axial rotation for increased functional mobility and gait fluency with less physical exertion.

Shock X L-Codes:
L5984 and L5987

MOVE MORE, MOVE BETTER

WITH ALPS SUPERIOR PERFORMANCE LINER

HD GEL + BLACK FABRIC

ALPS® High-Density (HD) gel combined with black limited vertical stretch fabric **guarantees superior performance for medium to high-activity users.**

- ✓ Minimizes soft tissue movement and provides a **high level of control of the prosthetic leg.**
- ✓ The relatively firm nature of the HD Gel **delivers comfort along with control and stability.**
- ✓ **Protects the residual limb** thanks to the high capacity of the HD gel to absorb vertical and shear forces.
